OPENING THE DOOR TO A WORLD OF POSSIBILITIES

Since the acquisition in 2001, Lepage has been expanding its production facilities, manufacturing equipment and the product range itself. Innovative window and door designs, state-of-the-art milling and manufacturing equipment along with an experienced and dedicated team have enabled us to grow our business in both Canada and the United States.

Our philosophy of being a custom production shop has allowed customers the flexibility they want to design the windows and doors they need for their homes and projects.

At Lepage we strive to meet and exceed your expectations.

A handwritten signature in black ink, appearing to read 'Guy Bonneville'.

Guy Bonneville

WELCOME TO A NEW CALIBER OF QUALITY

The materials and the assembly techniques used are what make buying a Lepage product a sound investment. At every step of the manufacturing process we strive to use only the best components and practices available.

Built specifically for each customer our products are not mass produced but made according to each particular project.

QUALITY

WELCOME TO THE TEAM

With the fourth generation window maker now at Lepage we certainly are a group with a long history in the window and door business.

AN EYE ON THE FUTURE

From our most senior artisans to our youngest engineers we are a company that continues to grow and innovate every year.

MEETING THE DEMAND

All of us have one goal in mind, to provide you with unmatched quality and options. And to help us with this, our products are distributed through locally owned independent dealers that are as passionate about fenestration as we are. We work closely with these dealers to ensure that your window and door experience is a rewarding one.

TRADITION

TECHNOLOGY MAKES THE DIFFERENCE

To meet our meticulous standards and create an exceptional range of fully customized, high-quality products, we've made considerable investments in sophisticated machinery from as far away as Finland, Austria and Germany.

ONE TEAM. ONE COMMON GOAL.

Our team of discerning experts and meticulous craftsmen work in tandem to satisfy your tastes and meet your needs, on time and on budget.

YEARS OF EXPERTISE

Backed by over 50 years of experience, our customers can count on the capability, flexibility and quality products that have made Lepage Millwork a true leader in the industry.

ALL YOU HAVE TO DO IS ASK

With virtually unlimited design capabilities we can help you create the look and feel your project requires. We offer a wide variety of standard products that you can customize to suit your individual needs or we can work together to achieve your own unique shape, size or designed window and door.

According to your tastes, we do it all for you at our factory, with expert precision, in the colors you select. A large selection of hardware, glass and divided light patterns help finalize the perfect blend of form and function.

VARIETY

CASEMENT WINDOWS

SOLID AND ATTRACTIVE

Beauty, performance and safety; our family of casement windows have it all! Created with a blend of style and technical ingenuity, this innovative system of PVC products was inspired by European technologies. The structural design of our casement windows is unique, sharing a common post between multiple units for superior strength. Solid and attractive, the PVC casement is perfectly adapted to our climate. You'll enjoy them in both summer and winter.

ALUMINUM CLAD

For a low maintenance exterior finish, the extruded aluminum clad for your PVC windows is the ideal solution. Thicker and stronger, it provides superior durability, weather and impact resistance.

FEATURES AND BENEFITS

- Welded profile sections for increased strength and improved performance
- Optional 6" frame profiles that position the sash in the inner part of the wall to reduce the risk of condensation
- A choice of brickmoulds for all types of installations
- 5 5/8" frame with brickmould for new constructions
- 4 1/2" flush frame for renovations and new constructions
- Available with triple glaze
- Available with the hybrid option (see page 24 for more details)

HUNG WINDOWS

TIMELESS CHARM

This classic style retains all of its advantages. Convenient and easy to maintain, hung windows can be opened and closed several times a day with the same ease. Built with a versatile, full modular system and sashes that tilt in to facilitate cleaning, Lepage Hung Windows remain a great value. These efficient and easy to use windows come in several colors, so they're as pretty to look as they are pleasant to handle.

PVC POWDER RESIN PROFILE

For a glossy finish similar to aluminum, Lepage offers the powder PVC profile. Unlike many PVC profiles, you won't see them yellow or crack. And because dust has a harder time clinging to the powder PVC profile, they're easier to maintain.

FEATURES AND BENEFITS

- Welded profile sections around for better resistance and improved performance
- 4 ½" frame for better sturdiness
- Choice of brickmoulds for all types of installations
- Tilt sash for easy maintenance
- The single hung sash is similar to the single sliding window, the casement and the awning
- Single and double hung available

AWNING WINDOWS

RAIN OR SHINE

No matter what the weather, an awning window lets air circulate, allowing you to enjoy a fresh breeze on a windy day, or the rich scent of a warm summer rain. Because they are fitted with our great system of triple weatherstripping, these Lepage PVC windows provide you with all the performance you need during the cold winter months. Our awning windows are designed and manufactured with care and offer both comfort and durability. You'll appreciate them, rain or shine.

ALUMINUM CLAD

For a low maintenance exterior finish, the extruded aluminum clad for your PVC windows is the ideal solution. Thicker and stronger, it provides superior durability, weather and impact resistance.

FEATURES AND BENEFITS

- Welded profile sections for better resistance and improved performance
- Optional 6" frame profiles the sash in the inner part of the wall reducing the risk of condensation
- A choice of brickmoulds for all types of installations
- 5 5/8" frame with brickmould for new constructions
- 4 1/2" flush frame for renovations and new constructions
- Available with triple glaze
- Available with the hybrid option (see page 24 for more details)

ARCHITECTURAL WINDOWS

SO PRACTICAL AND ALWAYS CHIC

With architectural windows, their unquestionable quality and performance never compromises the design front. Choosing architectural windows enhances the beauty of your home while immediately bringing a sense of charm and prestige to it. Numerous window options are available; choose from our architectural models or let us manufacture your windows according to your specifications and tastes. Rest assured that Lepage Millwork guarantees all their quality products. Enhance the beauty of your home with our architectural windows to spectacular effect.

ALUMINUM CLAD

For a low maintenance exterior finish, the extruded aluminum clad for your PVC windows is the ideal solution. Thicker and stronger, it provides superior durability, weather and impact resistance.

FEATURES AND BENEFITS

- Selection of frames that fit with other windows in your project
- Plenty of different shapes and assembly styles
- Direct sets without sash (low profile) to allow a better view, perfect for contemporary styles
- Direct sets with fake sash similar to the casement, awning, single hung and sliding windows
- Available with triple glaze
- Available with the hybrid option (see page 24 for more details)

BAY AND BOW WINDOWS

SPACE AND LIGHT

Let the light shine in with Bay or Bow Windows. Attractive and timeless, their angles allow for better brightness while providing you with an opportunity to play the space you have to create a stylish alcove. Very large dimensions are sure to guarantee perspective. Bay and Bow Windows are available in a wide range of frames, shapes and styles, with or without top and bottom shelves. Decorative grilles can also be added to give a distinctive look to your home.

POWDER PVC PROFILE

For a glossy finish similar to aluminum, Lepage offers the powder PVC profile. Unlike many PVC profiles, you won't see them yellow or crack. And because dust has a harder time clinging to the powder PVC profile, they're easier to maintain.

FEATURES AND BENEFITS

- Available with casement, hung and awning
- Bow windows are available with 4 or 5 sashes
- Available with triple glaze (for models with casement and awning)

SLIDING WINDOWS

EFFICIENT AND SECURE

Our Sliding Windows combine performance, energy efficiency and sustainability – a wise choice. With a removable sash for easier maintenance, they bring together functionality, comfort and aesthetics. There are many options available to embellish even the simplest models. And, as with all Lepage products, you always have the same quality guarantee.

POWDER PVC PROFILE

For a glossy finish similar to aluminum, Lepage offers the powder PVC profile. Unlike many PVC profiles, you won't see them yellow or crack. And because dust has a harder time clinging to the powder PVC profile, they're easier to maintain.

FEATURES AND BENEFITS

- Welded profile sections around for better resistance and improved performance
- 4 ½" frame for better sturdiness
- Choice of brickmoulds for all types of installations
- Tilt sash for easier maintenance
- Outside paint option available for the single sliding
- The single sliding window sash is similar to the single-hung, the casement and the awning
- Single and double sliding available

PATIO DOORS

CHARM AND FRIENDLINESS

A patio door guarantees a great view while providing you with access to your garden or deck. Whether you choose PVC or aluminum, your Lepage Patio Door will charm you with its elegance, strength and resistance, and it's perfect for that busy summer traffic. Allow yourself to be coaxed outside through its aluminum or PVC covered wood frame, PVC sashes and ultra-resistant screen, or just enjoy the light flooding in through its large surface area. Lepage Patio Doors offer you strength, reliability and peace of mind.

ALUMINUM CLAD

For a low maintenance exterior finish, the extruded aluminum clad for your PVC windows is the ideal solution. Thicker and stronger, it provides superior durability, weather and impact resistance.

FEATURES AND BENEFITS

- Reinforced bar to the vertical stile
- 6 ⁹/₁₆" , 7 ¹/₄" wood frame with PVC interior and exterior
- Decorative panels available
- Two, three or four panels
- Door widths: 5, 6, 8, 9 and 12 foot
- Sidelites and transoms available
- Available with triple glaze
- Available with the hybrid option (see page 24 for more details)

HYBRID OVERVIEW

THE BEST OF BOTH WORLDS

To bring together the contemporary looks and strength of aluminum clad with the energy efficiency of PVC, Lepage Millwork offers the best of both worlds with its hybrid window. Available with the casement, awning architectural (polygon) window and the patio door, you will certainly find the model that suits your tastes and the options that suit your needs.

ALUMINUM CLAD

For a low maintenance exterior finish, the extruded aluminum clad for your PVC windows is the ideal solution. Thicker and stronger, it provides superior durability, weather and impact resistance.

FEATURES AND BENEFITS

COLORS

Wide selection of superior quality opaque paints for a beautiful and durable finish.

STANDARD COLOR

OPTIONAL COLORS

Note : Pictures above are for reference only. The color may vary based on the type of application, surface it is applied to, and/or year of production.

GLASS

ENERGY-SAVING

All the latest and best performing options in glazing technology are available in our products, including Low-E, argon gas and more. Just ask and we'll help you define your needs and decide on the best choice.

In the winter, Low-E Argon glazing keeps the heat inside for less heating costs.

In the summer, Low-E Argon glazing reflects heat to minimize air conditioning costs.

DOUBLE GLAZE INSULATED

Among the most popular choices, the double glaze glass will certainly meet your needs.

TRIPLE GLAZE INSULATED

For superior energetic performance and better soundproof, triple glaze is the right choice.

Not available with hung, sliding windows and patio doors

TEMPERED GLASS

Tempered glass is mainly used as safety glass. Should a major shock causing breakage, the glass will be fragmented into small pieces, small enough not to cause injury. Tempered glass is heated until it softens and then rapidly cooled with air. This gives a compression layer 5 times stronger than ordinary glass.

GRILLES

LITE CUT DESIGN MADE EASY

Grilles give your windows and doors extra style and architectural interest. With our huge selection and extensive custom capabilities, lite cut design is yours for the asking. Dream it, draw it, and chances are we'll make it.

SIMULATED DIVIDED LITES

STANDARD

Choose from beautiful designs, our SDL profiles are available in different sizes: 7/8", 1 1/4" and 2".

*Available with the hybrid option only

FLAT*

GRILLES BETWEEN THE GLASS

GEORGIAN

The GBG's are permanently fixed between two frames of glass, providing style and cleaning convenience.

TUBULAR

DIFFERENT GRILLES PATTERNS

SCREENS

ALUMINIUM SCREEN

The aluminum screen is the most conventional and sustainable for all and they adapt to all products.

WHITE

SCREENS MESH

Our standard screen mesh is the fiberglass mesh. With the same look but a little more durable, the aluminum mesh is the best choice. Nothing better than our invisible screen mesh to enhance the outside view.

INVISIBLE

FIBERGLASS

ALUMINIUM

MOULDINGS

MOULDINGS THAT GET AROUND ANYTHING

Depending on the installation type finish you have chosen, you will find a molding that fits your home perfectly.

*Available with the hybrid option only

INTERIOR JAMB EXTENSIONS

For an interior finish in perfect harmony with your window, Lepage offers various interior jamb extensions.

GARANTIE LEPAGE MILLWORK

LEPAGE MILLWORK'S WARRANTY

Lepage Millwork offers a warranty that meets your expectations. It provides up to 20 years on selected product components. It reflects the quality of our products and confirms the value of your purchases.

For more information, please visit our web site or ask your local dealer.

Environmentally conscious, Lepage Millwork offers Energy Star products. Energy Star is the international symbol of excellence in energy efficiency. Products that have identification have had severe prescribed procedures, demonstrating that they meet or exceed the standards in this area without offering a lower performance.

Lepage is proud to be certified with the NFRC program which is a non-profit organization that administers the only uniform, independent rating and labeling system for the energy performance of windows, doors, skylights, and attachment products. The NFRC goal is to provide fair, accurate, and reliable energy performance ratings.

* Depending on the options selected, our products can meet the eligibility criteria for Energy Star for your area.

THINKING GREEN

OVER THE YEARS, LEPAGE MILLWORK HAS BEEN MOVING FORWARD IN A MORE ENVIRONMENTALLY DIRECTION. 100% of all wood waste in the manufacturing of our products is used to generate heat and steam for our productions facilities. All cardboard, paper, plastic, aluminum scrap and glass are sent to the proper recyclers.

Our paints, stains and sealers are made with water based formulas which is less harmful to environment. Product delivery schedules are thoroughly planned in order to maximize the space in each delivery truck minimizing the amount of trips made. Production supplies are purchased in bulk from vendors that are located close to the facilities to limit the distribution distance. Thinking green encompasses our entire company and as we move into the future we will contribute to a cleaner environment and a cleaner world.
